Pavement marking project begins on US Highway 83 between Bismarck and Wilton

Beginning today, May 2, the North Dakota Department of Transportation (NDDOT) will be placing pavement marking on both the northbound and southbound roadways of US Highway 83 between Bismarck and Wilton.

During construction:

- Motorists may experience brief delays
- Flaggers may be present
- Fresh paint may be present on the roadway

The project is expected to be completed in approximately one week

The traveling public should use caution and reduce their speed when driving through the work zone. Motorists should allow extra distance between their vehicles and the vehicles in front of them, use extra caution and obey flaggers and posted signs.
